

Eugene Smyshliaev

Full Stack Software Developer

Netanya | 054-592-8289 | e.smyshl@gmail.com

[Github](#) | [LinkedIn](#) | [Portfolio](#) | [DemoProject](#)

SUMMARY

Highly Motivated Full Stack Software Developer skilled in HTML, CSS, JavaScript, Node.js, React.js, Redux, Git, and PostgreSQL, with strong logical, algorithmic, problem solving skills, and system thinking abilities to design, develop, and launch functional applications. Eager to apply broad engineering skills in both frontend and backend development

TECHNICAL SKILLS

HTML, CSS, Bootstrap, Javascript, Typescript, OOP, Node.js, JSON, API, HTTP, Express, React.js, Redux, Git, SQL, PostgreSQL, MySQL, OpenAI API, Google Cloud API

TECHNICAL PROJECTS

Hamsters Network - [Github](#) | [Demo](#)

Designed and developed a safe space for families to share photos of their children

- Utilized Google Cloud Storage for private storage of photos, user registration and authentication
- Used authenticated URLs for safely receiving files, JWT to store encrypted client-side user information
- Used Node.js, Express, PostgreSQL for the back-end
- Designed and developed user interfaces with React.js, MaterialUI, axios for the front-end

EXPERIENCE

Full Stack Developer Intern

Israel

Dooiu

09/2024 - Present

- Developed an AI-Driven Solution to provide personalized recommendations to users, improving user engagement and decision-making
- Designed and managed a MySQL database, including creating scripts to populate it with synthetic data for comprehensive testing and accurate data modeling
- Designed and developed backend code in Node.js to implement and optimize application functionality
- Collaborated and communicated with a team, utilized Git for version control and Jira for the task management

Electrochemical Production Worker

Raanana, Israel

Strauss & Co

11/2023 - 05/2024

- As a team member, performed various tasks to manage the technological process of product manufacturing, ensuring daily production goals were met

Senior Specialist in Procurement of Reactor Equipment for Nuclear Power Plants

Moscow, Russia

Rosatom Subsidiary Company

08/2011 - 10/2020

- Drew up clear technical specifications for reactor equipment for nuclear power plants, implemented them into the design flow, and monitored the manufacture and testing of equipment

EDUCATION

Full Stack Web Development, Python and JavaScript program

Ramat Gan, Israel

Developers Institute, TLV Coding Bootcamp

05/2024 - 08/2024

Master Degree in Engineering

Moscow, Russia

Moscow Power Engineering Institute (Technical University)

1995 - 2001

Nuclear power plant engineering

LANGUAGES

English - Fluent, Hebrew - Basic, Russian - Native
