# Eugene Smyshliaev
## Full Stack Developer

Netanya | 054-592-8289 | [e.smyshl@gmail.com](mailto:e.smyshl@gmail.com)
[Github](#) | [LinkedIn](#) | [Portfolio](#) | [DemoProject](#)

## SUMMARY

Full Stack Developer skilled in HTML, CSS, JavaScript, NodeJS, React, Redux, Git, and PostgreSQL, with strong logical, algorithmic, and system thinking abilities to design, develop, and launch functional applications. Eager to apply broad engineering skills in both client and server-side development

## TECHNICAL SKILLS

HTML, CSS, Bootstrap, Javascript, Typescript, OOP, NodeJS, JSON, API, HTTP, Express, React, Redux, Git, SQL, PostgreSQL, Google Cloud API

## TECHNICAL PROJECTS

**Hamsters Network** - [Github](#) | [Demo](#)
A safe space for families to share photos of their children
- Utilized Google Cloud Storage for private storage of photos, user registration and authentication
- Used authenticated URLs for safely receiving files, JWT to store encrypted client-side user information
- Used NodeJS, Express, PostgreSQL for server-side and React, @mui/material, axios for client-side

## EXPERIENCE

**Full Stack Developer Intern**                                                                              Israel
Dooiu                                                                                                09/2024 - Present
- Developing an AI-Driven Solution to provide personalized recommendations to users, improving user engagement and decision-making.
- Designing and managing a MySQL database, including creating scripts to populate it with synthetic data for comprehensive testing and accurate data modeling.
- Writing and maintaining backend code in Node.js to implement and optimize application functionality.
- Collaborating with a team, utilizing Git for version control and Jira for the task management

**Electrochemical Production Worker**                                                          Raanana, Israel
Strauss & Co                                                                                         11/2023 - 05/2024
- As a team member, performed various tasks to manage the technological process of product manufacturing, ensuring daily production goals were met

**Senior Specialist** in Procurement of Reactor Equipment for Nuclear Power Plants          Moscow, Russia
Rosatom Subsidiary Company                                                                    08/2011 - 10/2020
- Drew up clear technical specifications for reactor equipment for nuclear power plants, implemented them into the design flow, and monitored the manufacture and testing of equipment

## EDUCATION

**Full Stack Web Development, Python and JavaScript program**                          Ramat Gan, Israel
Developers Institute, TLV Coding Bootcamp                                                   05/2024 - 08/2024

**Master Degree in Engineering**                                                                   Moscow, Russia
Moscow Power Engineering Institute (Technical University)                                 1995 - 2001
Nuclear power plant engineering

## LANGUAGES

**English** - Fluent, **Hebrew** - Basic, **Russian** - Native
